KEYTRUDA® Dispensing Category: A.

Before prescribing please consult the full prescribing information published on the homepage of Swissmedic (www.swissmedinfo.ch).

Dear colleagues,

We are delighted to invite you to our **2nd Focus on Oncology in Lucerne**.

We are dedicating the two-day symposium to an excursion through current topics and issues in PRO and CONTRA.

We have succeeded in attracting renowned speakers from Switzerland and abroad on the respective key topics and to make them available to our Swiss colleagues for exciting discussions in an uncomplicated atmosphere.

After the presentations, our speakers will certainly be available for a lively discussion.

We hope to have aroused your interest with this program and would be delighted to welcome you in large numbers to our symposium in Lucerne on March 12 and 13, 2026.

With best regards

**Prof. Dr. med. Silke Gillessen
Sommer**
