MESSAGE

Dear colleagues,

Following the success of our GI Malignancies Training series, we are pleased to invite you to our 2025 online event. This year has been another transformative one for gastrointestinal oncology, with important breakthroughs continuing to shape clinical practice across all GI tumor entities.

Please send us a patient case, a topic that interests you or questions in advance.

After each lecture there will be enough time for a joint discussion of the individual patient cases and for questions.

We are looking forward to numerous appearances and a lively exchange of experience!
